CENTRAL SOLUTIONS, INC.

*Meeting your needs...
by formulating solutions*

Founded in 1925, and now in the fourth generation of same-family private ownership, Central Solutions, Inc. is a formulator, manufacturer, and packager of personal and environmental hygiene products for a variety of markets.

PRODUCT SCOPE

CSI develops proprietary formulations for private manufacturing/labeling, as well as manufactures and packages fully contractual solutions. Expertise in formulations include:

- shampoos • hard surface disinfectants • medicated & non-medicated hand soaps
- body washes • animal grooming topicals • alcohol & non-alcohol based hand sanitizers
- conditioners • surgical instrument & enzymatic cleaners • skin creams & protectants

QUALITY ASSURANCE

All products are developed and filled under current Good Manufacturing Practices (cGMP) in our 170,000 square foot facility. Full compliance with the regulations of two primary government regulatory agencies, the FDA and EPA, include:

- Cosmetic Manufacturer • Medical Device Establishment
- Drug Manufacturing Establishment • Disinfectants & Antimicrobials

LABORATORY

Unique formulations are developed in-house through a research and development process that combines curiosity, imagination, method validation, and technical expertise with our customers' diverse needs. CSI laboratories perform the vast majority of all material and product testing in-house, to ensure fast product delivery, cost-containment, and flexibility.

MANUFACTURING

Batch sizes ranging from 500 to 6000 gallons are available from over thirty-five (35) production vessels. Product and process validations conducted by in-house technicians ensure quality and consistency during the processing, cleaning, and filling procedures.

FILLING AND PACKAGING

Our multiple fill lines are designed to handle all standard packaging configurations, as well as customer-designed containers at a rapid and efficient rate.

Our premier line of shampoos, cleansers, & moisturizers are formulated for high-end yet affordable results. A variety of formulary options empower users and providers to select products that fit their own unique preferences.
